

**GLEBE HOUSE
SCHOOL & NURSERY**

Send Local Offer

Glebe House School & Nursery is an Independent School; within the EYFS we provide full day care and either all year round or term time care in Nursery and our Reception class.

We ensure our service is fully inclusive and that all children, including those with SEND, are supported to reach their full potential, provided parents, families and other agencies feel we can meet their child's needs effectively. Our key purpose is to provide Early Years Education and Care for children from 6 months to school age. Children are encouraged to learn through play. We aim to develop each child's individual potential, through observation, assessment and working in close liaison with parents and other agencies to create appropriate Support Plans for each child with additional needs. All children have weekly next step targets.

Parents can contact the Nursery Manager directly regarding spaces in the setting or the Registrar with regards to Reception children.

We make reasonable adjustments to ensure our service is fully accessible to children and young people with SEND and their families. We have Setting Sencos who liaise with children's key persons, family and other agencies to ensure we can try and provide their children with appropriate care and equipment to meet their individual needs. We communicate with parents in a range of ways, including makaton, visual timetables, verbal feedback, parents' evenings, email etc. We have completed training in Autism, ADHD, Dyspraxia, Behaviour Management, Language Development, Aspergers, Epi Pen and will undertake additional training if required.

If you have a compliment or complaint and you feel you cannot approach the setting, please either contact Ofsted on 0300123 1231 or ISI on 02076000100.
